

THE MAYFLOWER AND GALATEA.

GREAT VACHT BACE TO-DAY.

International Contest for the America's Cup, the Representative of the Yachting Supremacy of the World-Description of the Mayflower and the Galatea -Lieut. Henn's Ambition-Wind and Weather at Saudy Hook To-Day.

The beautiful American sloop yacht Mayflower and the British cutter Galatea will to-day engage in the second of the series of races for the cup so gallantly won by the America at Cowes in 1851, and later on pre-sented by her owners to the New York Yacht Club as trustee, it being made a per petual challenge cup, representative of the yachting supremacy of the world. This is the sixth attempt of the English to take the cup aviay from America. TO-DAY'S RACE

will be sailed twenty miles to the windward and return off Sandy Hook. If a third race should be necessary it will be sailed on a day yet to be named over a forty-mile tri-angular course at sea, and each race must be nade in seven bours.

angular course at sea, and each race must be made in seven hours.

In all former contests for the America's Cup two races were sufficient to decide the matter. In the pending contest the Mayflower has already won one of the series, and the belief is general that should the weather be favorable to-day the Mayflower will uphold the record made by her predecessors, and secure the retention of the America's Cup in this country without the necessity of a third race between her and the Galatea. DESCRIPTION OF THE GALATEA AND THE

MAYFLOWER.

There is quite a similarity in the appearance of the two yachts when they are affoat, but as they appear in the dry-docks the difference in model is very marked, the cutter being narrower and deeper, and much leaner at the garboards. Both are extremely handsome in model. As measured by Mr. John Hyslop, the measurer of the New York Yacht Club, the two boats compare as follows: MAYPLOWER. pare as follows:

150,45 107.66 98,90 86.87 88.11

a fraction less than a minute, whereas, ac-cording to plans of measurement elsewhere, the Galatea should give the Mayflower about

LIEUT. HENN'S AMBITION. LIEUT. HENN'S AMBITION.

It was one of the dreams of Lieut, Henn's boyhood, when he was a "midshipmite" in the royal navy, to build a yacht that should bring back to England the America's Cup. For this purpose he built the Galatea, and these races will decide whether he will carry out his cherished plan and make the next race for the America's Cup take place around the isle of Wight. The Maylower will have on board a crew of thirty men. Gen. Paine, the yacht's owner; Edward Burgees, her designer, and three or four guests of Gen. Paine will also be on board. The Galatea will carry her regular crew of

guests of Gen. Paine will also be on the Calatea will carry her regular crew of twenty men all told. AFTER THE GALATEA THE IREX. Should the Galatea be beaten in this race it is the intention of the English yachtsmen it is the intention of the English yachtsmen to send over the Irex next season, which has beaten both the Genesta and Galatea. Apparently it would have saved time to have sent the Irex this season and given the Yankee sloop a chance at something worthy to test her qualities.

THE GALATEA. SANDY HOOK, N. J., Sept. 10.—The cutter Galatea, which was anchored during the night outside the Hook, was towed up the bay early this morning.

A fleet of salling and steam yachts are at anchor in the lower bay.

THE PUBITAN PREPARING FOR A RACE. New Bedford, Mass., Sept. 10.—The yacht Puritan, now at Naushon, is having a raised netting put around her, and other preparations are making looking like an ocean voyage. It is rumored that she will sail in an ocean race with the Galatea.

WEATHER TO-DAY AT SANDY HOOK. The REPUBLICAN weather expert predicts as follows:

as follows:

Esturday, Sept. 11—Early morning, at and before surrise, cool cloudy, breezy. Weather will improve through torenson by less cloud, the breeze continuing, but lighter from 9 a. m., till near noon; then freshening and favorable through p. m.; lightest from 9 to 11 s. m. Midday will be warm or hot, but mest of the day will be cool, with cloudy, breezy, threatening aspects. Plenty of wind all day, except from 10 a. m. to a p. m.; then not so missking as the rest of the day. The error, if any, will be in underrating the dull and stormlike aspects.

Faiday, Sept. 10, 1886. Nationals vs. Philadelphias to-day at 4:15.

Missionary Workers.

The ladies of the Woman's Missionary So-cicty of the Methodist Church met yesterday and decided to give a "New England dinner" in connection with an "oriental bazaar" at Rational Rife's Armory Sept. 28, from \$4.0.10 p. m. Young ladies in costimues of many nations will sell their wares from little booths, constructed in the picturesque syle of oriental lands, Admission free, Meals 28 cents, Proceeds for benefit of foreign missions.

Woman's Christian Temperance Union The annual meeting of the Woman's Christian Temperance Union of the District of Co humbia will be held on Oct. 5 and 6. Dr. Wm. H. Roole, of New York. Miss Henricita Moore, of Ohio, and Mrs. S. H. Martin, of Baltimore, are among the speakers. Extensive arrangements are being made by the ladles, and the co-operation of all temperance workers is cordially solicited.

THE CROP REPORT. Later Returns Show a Much Better

Yield Than Anticipated. The September report of the department

of agriculture shows a better yield of spring wheat than was expected a month ago. The improvement is in the northern beit, Wisconsin, Minnesota, and Dakota. In Nebraska there has been a decline; in Iowa

Wisconsin, Minnesota, and Dakota. In Nebraska there has been a decline; in Iowa little change. The general average is 84, an increase of 4 points. The average yield of the crop, so far as the results of threshing are reported, exceeds 11 bushels, and may reach 11½ bushels per acre.

Threshing of winter wheat in the Obio valley gives a better return than was expected at harvest, and there is some improvement in Missouri and Kansas. In the middle and eastern states the percentages of July are not materially changed. In the south the harvest was disappointing, and rains injured the product in the shock. The returns indicate an average yield of about 12½ bushels per acre. The entire wheat product will apparently exceed that of last year by \$0,000,000 to 90,000,000 bushels. The exact determination of area harvested and results of threshing are easily equivalent to a variation of at least 2 per cent.

Corn has declined from \$1\$ in August to 77. In the states of principal production the status is as follows: Kentucky, from \$7\$ in August to 90 in September; Ohio, \$8\$ to \$9\$; Michigan, \$0\$ in both returns; Indiana, \$9\$ to \$9\$; Illinois declines from 77 to 72; Missouri, from 75 to 62; Kansas, 72 to 62; Nebraska, from 76 to 88; Iowa, 73 to 7. The loss west of Indiana is caused by drought. In the South Atlantic states there has been improvement, on the guif coast a alight improvement, except in Texas, where drought has reduced condition. The present crop prospect, with no further decline, is 19 per cent. worse than last year, and indicates over twenty-one bushels.

is 19 per cent. worse than last year, and indicates over twenty-one bushels per acre, or
nearly 1,600,000,000 bushels.

The cotton returns show a vigorous condition of the piant, with lateness and defciency in fruiting. There has been improvement in most of the states, with decided
decline in Texas, and a little in Arkansas.
The indisputable reduction of condition
last month in the south and west of Texas
has been emphasized in this return. The
average of condition of the crop area, 82, is
slightly above that of Aug. 1, for the first
time in September for fifteen years. With
a long and favorable autumn, it indicates
an average crop. Yet a decline in condi-

a long and favorable autumn, it indicates an average crop. Yet a decline in condition, after this date, is usual. Insects have appeared in most of the states, with little loss so far, more from the boll worm than from the caterpillar. The state averages of condition are: Virginis, 77; North Carolina, 82; South Carolina, 81; Florida, 83; Georgia, 81; Alabama, 80; Mississippi, 82; Louislana, 81; Texas, 76; Arkansas, 93; Tennessee, 95.

The results of threshing make the condition of oats at harvest 91, a small reduction from earlier expectation. The average of barley is 93; Indicating an average crop. Buckwheat averages 90. Potatoes have declined from 88.3 to 81.4, from effects of local drought. In New York the decline is from 97 to 89, and it is heavy in the dry area of the west. The condition of tobacco averages 81.

averages 81.

The number of fattening hogs are apparently less by about 6 per cent., with some reduction in average weight.

Thousands see for the first time in our "Sentorial" what manner of men are our senators.

Temperance at the Soldiers' Home.

The Soldiers' Home.

The Soldiers' Home Temperance Union held its usual weekly meeting in their entertainment hall last night. Miss Chase, the W. C. T. U., superintendent of the temperance work, was very cordially welcomed back by her many friends. An entertaining programme, consisting of duets, trios, recitations, and addresses, was well received, the participants being Missess Ingraham, Mrs. Crandall, Miss Thomas, Miss Hausmann, Miss Sloat, Mr. Machelt, and Mr. Sargent, Mich good has been accomplished by this work, and many have been snatched from the downward path to ruin, Many of the members of the union have already made individual contributions to the Charleston suffers.

EXECUTIVE INFORMATION.

The Treasury Department has decided that regalla, flags, &c., imported for the use of mutual benefit or benevolent, societies are not entitled to free entry.

Five banks were yesterday fined \$100 by the comptroller of the currency for delinquency in making returns, and he proposes to continue the fine daily until the returns are in.

Col. Charles S. Stewart, the sonior colonel of engineers in the army, has formally applied to be blaced on the retired list next Thursday. He is succeeded as senior colonel of engineers by Lieut. Col. George H. Mentiell,

ADVANCE SLOW BUT SURE.

Reasons for the Apparent Heaviness of Certain Stocks.

Certain Stocks.

Doran & Wright Co., of New York, in their review of the past week to Walsh, Cropley & Co., of this city, say: The increasing prosperity of the country and satisfactory developments in trade circles is beginning to make itself felt in Wall street, and while the advance is slow, it is nevertheless sure. One of the pehief reasons assigned for the apparent heaviness of some stocks on what seems otherwise to be a buoyant market is the fact that, as is usually the case, farseeing operators discounted the present satisfactory condition of trade and bought considerable stock, and this they are now marketing at a handseum profit, but, on the other hand, declines bring out very little stock, thereby proving that stock is being picked up whenever the list sells off. For the past two days the financial mind of Wall street kas been engaged in solving the somewhat knotty problem of how many knots the Maylower can beat the Galatea, and the exchanges have been deserted by the large operators, leaving the field to the smaller fry, who only nibble instead of biling, and this has resulted in very meager fluctuations, but when once the superiority of the Vankee sloop has been clearly demonstrated, there is every likelihood of the present movement taking a more pronounced shape. London is said to be buying seme of the southern securities, and East Tennessee, Virginia and Georgia securities have been benefited thereby. The latter have but lately been per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, while call loans were made at 1 per cent, again. The oil market has been featureless until yesterday, when a boom started, which, in the absence of any very serious well news may be carried on, and possibly give us an active marke

Six Men Hold an Election. Parties just returned from Springvale pre-cinct of Fairiax county report that the meeting held there on Thursday to elect delegates to cinct of Fairfax county report that the meeting held there on Thursday to elect delegates to the Democratic convention to meet at Culpeper Sept. 23 was but slimity attended, not more than six or seven persons actively participating in the meeting. A few others were present as lookers-on. Before the delegates were elected one of the settive participants said that in view of the very strong and increasing opposition to Gen. Lee that it was desirable to have an expression of views of those present. Mr. Carper, a delegate to the last convention, said that he was willing to devote thirty more days and nights to the next convention if it was necessary to elect Lee. The next man put in nomination said he would see Mr. Carper's thirty days and go thirty days better in order to force the opposition to Lee to yield to him. The lattone put in nomination, also a former delegate, said that he was somewhat stirred by the expressions of allegiance to Gen. Lee on the part of his friends present, and he wished to say "that if he could feel this moment that there was one drop of the blood of Gen. Lee in his veins he would be the happies and proudest man in Virg cla." A voice in the meeting suggested that ten drops of Fairfax county whisky would produce the same happy effect upon him. The four delegates were then unanimously elected by the enthusiastic six Lee men.

Red Star Couch Cure supplies a needed want. It has no narcotics, and is purely vegetable.

Concerning Stockings and the Ladies Who Wear Thom. That the French and American instinctively love the beautiful is illustrated by the dine That the French and American instinctively love the beautiful is illustrated by the fine hostery they use. Certain it is that this article of apparel is not worn to display; therefore the fair wearers of stockings of such delicate texture, beautiful colorinus, and artistic designs show a refinement of taste that might well be imitated. The English and German may be called practical and sensible for wearing plain cotton hose; for do they not answer the purpose equally as well as the most beautiful, and who is the wiser? But, on the other hand, is not credit due the naturally artistic American woman who loves the beautiful and who is the wiser? But, on the other hand, is not credit due the naturally artistic American woman who loves the beautiful because it is centiful and values the possession of it though it is not to be advertised to the world? The French take the palm for manufacturing the finest hosiery, and much skill and time is given to the production of whole designs. Some idea of the curious combination of colors and patterns may be gathered by a visit to the Palais Royal of this city. The display is unusually flue and deserves special meation.

Delaying Justice.
Col. W. H. Swallow, the noted confidence man and swindler, is still in jail in Fredericksman and swindier, is still in jail in Fredericas, burg, Va. The case has not yet been brought before the grand jury of that city, because of the absence of Father Donohus, upon whom he passed the forged draft, and the slokness of Cashier Taylor, who received and cashed the draft. Swallow has not yet been able to procure any counsel to defauld him.

St. Jacons On will cure the worst case of neuralgia in a night. Thousands know this.

Everything Goes.

Of course it does, when a man with "go" in him commands. As all the city will testify, such a man is A. Ka ufman of the famous com-bination stores, 1241-1245 Eleventh street south-east. Articles of dress, earpets, books and shoes, are now his grand attractions, at bar-gains never before heard of, and all the people will be there. A. K. "Everything Goes," in this journal of to-day, is worth your reading and your thought.

valled, principally due to the confidence that the Chicago convention of managers would finally harmonize all the interests involved—their action in the disputed questions and working for agreement on more important issues meeting with the approval of the street. The market continues to show no sign of outside interest, and transactions are still confined to purchases and sales by the room prefessional.

The trading was extremely tame and fluctuations small, little or no progress being made until after 12 o'clock, when the bidding up of Canada Southern and an increased business, with better prices for other stocks, put a different face upon affairs. The improvement continued until the close, which was strong at about the best figures reached.

Money on call is tighter, ranging from 5 to 7, last loan at 6, and closing at 5 to 6. Sterling exchange is steady and lifetees. Actual business at 4313 to 482 for 66-day bills, and 4814 to 4815 for demand. Posted rates 4824 to 485 %. Government bonds have been dull and steady state bonds have been dull and steady.

Treasury balances—Colo, \$12,915,703,50; our rance, \$2,785,795.78. Quotations of Friday's Stock Sales.
The following sally market reports have been farnished by J. Vance Lewis, broker, Le Droit building, Eighth and F streets, being the most active stocks in the New York exchange:

Scrofula of Lungs.

I am now 49 years old, and have suffered for the last affreen years with a long trouble. I have spent thousands of dollars to arrest the march of this disease; but temporary relief was all that I obtained. I was unfit for any manual labor for use of Swifts Specific is. 8. 5., claiming that he himself had been greatly benedied by its use in some lung troubles. I resolved to try it. The results are remarkable. My cough has left me, my strength has returned, and I weigh skily pounds more than I ever did in my life. It has been three years since I stopped the use of the medicine, but I have had no return of the disease, and there are no pains or weakness felt in my lings. I do the hardest kind of mechanical work, and feel as well as I ever felt since I was a boy. These, I know are wonderful statements to make but I am hones when I say that I owe my existence and health to day to S. S. 8. I would be recreated to the disty owe to humanity if I failed to bear this ch erf-testimony to the merits of this wonderful medicine.

Montoonery, Ala., June 20, 1883. MONTOOMERY, ALA., June 25, 1885.
